Director of Special Education

Home-to-School Technology Agreement

In order to engage digital learners of the 21st century in our classrooms, the Mary S. Shoemaker School uses a multitude of educational tools including students bringing in their own technological devices. Currently, students utilize iPads to research information, produce projects, and communicate with others on activities in school. Fourth and fifth grade students will be permitted to bring from home their own technological devices that are appropriate for activities being taught in school (iPad, laptop, smartphones, and/or tablets, etc.). If you give permission for your child to bring in one of the above mentioned technology devices; the following guidelines must be adhered to:

- All students will be held accountable to follow the "Acceptable Use Policy" which is a prerequisite to using any technology in school. (Please review this policy located on our website at www.woodstown.org, policy 6142.10.)
- All students are responsible for their property; the school personnel will not be held accountable for any damages, theft, or loss. In addition, the staff cannot download, troubleshoot, or charge the devices.
- The devices will be permitted for use when the teacher/staff member gives permission. The devices may not be permitted on the school bus.
- Devices are not to be used to film, record or take pictures without consent.

If you wish for your child to use his/her device and have read the Acceptable Use Policy and conditions above; please sign and return this form to school with your child. Please impress upon your child the importance of being responsible with the use and care of the devices.
